IP68 Waterproof Keyboard
with Antimicrobial Additive & Coating, Optional Backlight

• Wipeable/simplified cleaning	• Key layout: 106 keys+ 4 function buttons
• Switch Life: up to 10 million operations	• RoHS Compliant
• 100% Waterproof	• Clean mode on/off switch
• Numeric Keypad: Yes	• Operating environment: -40°C - 60°C
• Silicone Membrane: Latex free	• Dimensions: 385(L) x 132(W) x 14(T) mm
• BPR Approved Antimicrobial Technology	• Net Weight: 715 g
• Colour Options: Black/White/Other colours available upon request (MOQ will apply)	• System Requirements: Windows, Mac OS, Linux
• Ability to clean with alcohol wipes or hospital grade chlorine disinfectants	• Language: All languages compatible with Windows®
• USB protective cap	• Communication: USB
• Laser etched keys, for long lasting legibility & durability	• **01-3021 Series:** Backlit
• Mounting: Desktop	

Why choose ioniTOUCH?

- **Assisting with infection control and AMR,** by providing an easy solution to disinfect multi-user surfaces and reduce the spreading of microbes causing patient and staff illness.
- **BPR approved additive,** slowing the growth and spread of bacteria, providing users with a dependable and constant built-in protection against bacteria and contamination, a key objective for many hygiene critical areas.
- **Testing,** ioniTOUCH products have certified efficacy in approved antimicrobial tests against E. coli, MRSA and K. pneumoniae.
- **No difficulty cleaning,** standard keyboards are difficult to clean, due to worry of damaging the keys. ioniTOUCH range are fully sealed, which means that devices can be thoroughly cleaned.
- **Procedures,** good hand hygiene practices followed by our easy clean keyboard surface, provide a safer working environment for staff and patients. Helping healthcare authorities meet all cleaning policy regulations.
- **Responsive key entry,** provides excellent key feedback strokes to user.
- **Cost-effective solution,** longer hospital stays due to infections, can be costly and impact healthcare infrastructures, ioniTOUCH range creates an additional barrier in the spreading of bacteria to help reduce patient and staff sickness.

IP68 Waterproof Wired 5 Button FID02 FingerPrint Mouse
with Antimicrobial Additive & Coating

All biometric data is encrypted and digitally signed using a 256-bit advanced, hardware-generated encryption. One-time encryption keys ensure that Biometric data remains entirely within the host's trusted environment.

• Wipeable/simplified cleaning	• Button scroll design
• IR optical solution	• Quiet click buttons
• 100% waterproof	• RoHS Compliant
• Silicone Membrane: Latex free	• Switchable DPI: 800 / 1200 (defult) / 1600
• BPR approved antimicrobial technology	• Operating environment: -40°C - 60°C
• Colour Options: Black/White/Other colours available upon request (MOQ will apply)	• Product Size: L120 x W70 x H40mm (approximately)
• Ability to clean with alcohol wipes or hospital grade chlorine disinfectants	• Product Weight: 110g (approximately)
• Resolution: IR Optical	• System Requirements: Windows, Mac OS, Linux
• USB protective cap	• Language: All languages compatible with Windows®

Why choose ioniTOUCH?

• **Assisting with infection control and AMR,** by providing an easy solution to disinfect multi-user surfaces and reduce the spreading of microbes causing patient and staff illness.

• **BPR approved additive,** slowing the growth and spread of bacteria, providing users with a dependable and constant built-in protection against bacteria and contamination, a key objective for many hygiene critical areas.

• **Testing,** ioniTOUCH products have certified efficacy in approved antimicrobial tests against E. coli, MRSA and K. pneumoniae.

• **No difficulty cleaning,** standard keyboards are difficult to clean, due to worry of damaging the keys. ioniTOUCH range are fully sealed, which means that devices can be thoroughly cleaned.

• **Procedures,** good hand hygiene practices followed by our easy clean keyboard surface, provide a safer working environment for staff and patients. Helping healthcare authorities meet all cleaning policy regulations.

• **Responsive key entry,** provides excellent key feedback strokes to user.

• **Cost-effective solution,** longer hospital stays due to infections, can be costly and impact healthcare infrastructures, ioniTOUCH range creates an additional barrier in the spreading of bacteria to help reduce patient and staff sickness.
